About Prof. O. N. Srivastava

Padmshree Prof. (Late) Onkar Nath Srivastava was an Indian physicist, an internationally renowned material scientist, a well-known professor at BHU, and the vice president for India and South Asia of The International Association for Hydrogen Energy. He has published around 450 scientific research articles, mentored more than 75 Ph.D. candidates, and served for the growth of Indian science until his last breath by becoming a truly nationalist scientist. He was known as the "Hydrogen Man of India" because he was a true visionary who foresaw hydrogen as a future fuel in the early 1980s and this was embraced by our Honorable prime minister Shri Narendra Modi on August 15, 2021, as the "Hydrogen Mission". Prof. Onkar Nath Srivastava and former President Dr. Abdul Kalam shared an ambition of establishing Kashi as a "Hydrogen City" with zero CO₂.

Objectives of the Society

- ◆ To facilitate national and international conferences every year on April 24th to bring the researchers on one platform
- ◆ Inaugural and memorial lectures on April 24th (Death Anniversary) and December 31st (Birth Anniversary)
- ◆ Scholarships
- ◆ Financial Assistance to scholars in need
- ◆ Promotion and spread of education in remote areas
